Recommendation / Restriction

- A Wi-Fi connection via your router is required.

The product's benefits

Installation

- The Classia with Netatmo gateway power outlet is easily installed in place of an existing standard power outlet and needs a standard-depthflush-mounting box (40 mm). Claw or screw fixing possible.

Usage

- Voice control of your lights and electrical appliances via a voice assistant

Avantages

- The installation of a Classia with Netatmo is identical as a traditionnal product. It does not need any additional wire and is placed in a standard one gang box of 40mm depth with or without claws.
- Simply control your house with the Classia with Netatmo products by voice control (via Apple Siri and Google Home). Simply saying "I am leaving" or "Good night" to your smartphone, you can swith off both selected lights, appliances and close all shutters.
- When installed on the wall, the wireless remote master switch has the same aesthetic and thickness as all the Classia with Netatmo switches.
