[> Visit e-catalogue](#)

## Product characteristics

- Lighting micromodule : Up to 300 W maximum, for conventional bulbs and LEDs. ON/OFF function
- Wireless light switches : Supplied with a replaceable battery with an 8 - year life. LED indicator with low battery warning
- All products in this kit are pre - paired with one another and communicate using 2.4 GHz radio technology
- Scalable installation: Complete your radio installation with Mosaic with Netatmo wireless light switches, sold separately
- White

## Recommendation / Restriction

- The items in the kit are pre-paired with one another (wireless switches and micromodule) and must be installed together in order to work.

## The product's benefits

### Installation

- The items contained in this all-in-one kit are installed without prior configuration, and require no modifications to be made to your existing installation. Wire the lighting micromodule into a ceiling light and control it with your wireless light switches.

### Usage

- Everything together as a single catalogue number: all you need to do is fit it!

### Avantages

- When associated to the connected starter pack, the Mosaic with Netatmo products can be controlled manually or remotely from your smartphone or via voice control.
- When installed on the wall, the wireless remote switch has the same aesthetic and thickness as all the Mosaic with Netatmo switches.
- Easy and quick association by tapping the products together.
