

Product sheet

LEGRAND

Auto-adjusting backbox for screed floor to install a floor box capacity 8 modules vertical or 12 modules horizontal

REF. 088090 | EAN. 3414970755735

[> Visit e-catalogue](#)

Product characteristics

- Auto - adjusting for a concrete thickness from 65mm to 90mm : time saving because no need to adjust the height of the backbox.
- Four pre - cut faces to easily accept trunkings (sections L 75mm x H 25mm minimum, L 225mm x H 38mm maximum) and pipes (diameters 20mm, 25mm, 32mm)
- Perfectly insulated from the concrete pouring thanks to a plastic tape on its four faces.
- Supplied with a metallic mask insulating from the concrete, during its pouring, and equipped with foldable lids to make handles to facilitate its extraction once dry concrete.
- Material : galvanised steel and plastic corners

Recommendation / Restriction

- Indoor use only.

The product's benefits

Installation

- Floor box modular to compose : matchs with your needs (type of installation, number of modules, finishes), gives time for reflexion, protects the product during the progression of the work site (the installation follows the steps of the site).

Usage

- Upgradability : without retouching the floor, a standard floor box initially installed can be replaced by a flush one and vice versa. Especially useful for tertiary rental buildings.

Avantages

- Allows a fast installation without tool of the standard floor box by an exclusive clipping and locking system in the notches of its four plastic corners
