LEGRAND

Lightning arrester T2 20KA 2 poles

REF. 412221 | EAN. 3414970517968

> [Visit e-catalogue](#)

Product characteristics

- T2
- 20KA
- 2P

Recommendation / Restriction

- "To provide correct protection, a lightning arrester is recommended: - at the origin of each installation (mandatory depending on the type and location of the installation to be protected, - at the origin of divisional switchboards: secondary protection or fine protection of sensitive equipment, - on all outputs of external electrical circuits (supply to secondary buildings, external lighting or external electrical panels, etc.). A communication network arrester should always be installed to protect communication equipment in the presence of a lightning arrester on the low-voltage network."
