

Product sheet

MOSAIC™ LEGRAND

Smart Bluetooth configuration gateway for multi-application configuration tool

REF. 088240 | EAN. 3414971406193

[> Visit e-catalogue](#)

Product characteristics

- Setting of all parameters on the app running of a smartphone - Instant programming control
- Used to display the parameters of each sensor
- Store and recall product settings file
- Easy configuration copy and paste
- operational test functions

Recommendation / Restriction

- Use a mini USB cable (not supplied) for recharging the configuration tool with a standard USB socket

The product's benefits

Installation

- working with the Legrand Close Up app available on Android platforms (Play Store) and iOS (Apple Store)

Usage

- With this configuration tool you can configure products before, during and after installation, whether switched on or off, using NFC and IR communication

Avantages

- Settings file management allows saving and sharing configuration files, selection of template files, and comparison of product settings with the original file
- Notification for any new available update to get last release of the app tool
- Easy parameter setting of Legrand DALI sensors
