## Description

The white waterproof 1-gang box Plexo allows a surface mounting of all Plexo functions (mechanism products). The box conception gives the opportunity to wire the mechanism from the top, bottom, sides or back. For indoor or outdoor use.

### Product characteristics

- Surface box to install functions supplied in composable mode (mechanism products).
- IP55 : protected against dust and water spary from all directions.
- Plastic materials with reinforced UV protection

## The product's benefits

### Installation

- A two-part box : a thin and very rigid mounting plate allows an easy fixing and a freedom of movement for wiring (the flexible part on the back of the product adapts to the shape of the wall) and a frame, to be clipped on the mounting plate.

### Avantages

- The box is composed of a mounting plate and a frame. The thin and very rigid mounting plate allows an easy fixing and a freedom of movement for wiring. The flexible part on the back of the product adapts to the shape of the wall.
- The mechanism is fixed to the mounting plate symmetrically at 90°, allowing cables/tubes to be fed in from the top, bottom, right or left, while maintaining the standard vertical position of the button.
