## Product charateristics

- 1 module, technopolymer, satin white
- Delivered with dedicated packaging to maintain the aesthetic characteristics unaltered
- Installation in a workmanlike manner, without scratches or dirt on the building site, thanks to the separation of installation times between the technical part and the aesthetic part. Installation perfectly aligned with the plate thanks to the self centering system

## Recommendation / Restriction

- It is mounted on the cover plate at the end of the construction site to maintain the work in a workmanlike manner. For internal use.

## The product's benefits

### Usage

- It is coordinated with the L.NOW aesthetic

### Avantages

- You can replace the device cover at any time by changing its color or restoring any damage to the surface without changing the entire device
- Easy to clean surface thanks to the planar geometry of the light point and to the surface treatment of the plastics used
