LEGRAND

KNX dali gateway din 16 groups

REF. 002665 | EAN. 3414972052276

> [Visit e-catalogue](#)

Product characteristics

- 1 output DALI bus (64 DALI devices max)
- DIN 4 modules
- Mains voltage 110/230VAC - 50/60Hz
- Power supply from KNX bus (10mA)
- DALI group control (16 max) & 64 different lighting scenes

Recommendation / Restriction

- Configuration through ETS tool from KNX association and dedicated DALI Commissioning Tool for DALI operations (addressing, grouping etc.)

The product's benefits

Installation

- Connected with the BUS/KNX cable

Usage

- Each DALI group configurable to function as constant light, corridor or sequence function

Avantages

- Possibility to support up to 8 DALI sensors for internal corridor and constant light level control on DALI groups transmitting current presence statuses and measured brightness values on the KNX bus
- Functional and battery life tests for DALI compliant emergency lighting fixtures to be sent through KNX
